Release Notes

eReceipts 8.0.3.5

New With This Release

The components listed here are new or updated in this release. For the latest features and fixes, the latest versions are required.

- eReceipts Server 8.0.3.5
- eReceipts Client 8.0.3.5

Supported Client Upgrades

eReceipts Client 8.0.3.5 can be upgraded from these client versions:

- eReceipts Client 8.0.3.4
- eReceipts Client 8.0.3.2
- eReceipts Client 8.0.3.1

eReceipts Client Compatibility

eReceipts Server 8.0.3.5 is compatible with these client versions:

- eReceipts Client 8.0.3.5 (New)
- eReceipts Client 8.0.3.4
- eReceipts Client 8.0.3.2
- eReceipts Client 8.0.3.1

Features

eReceipts Client Notifications

- Starting with this release, the version of eReceipts Client that you are using will be saved so that you can receive upgrade and end-of-support notifications in future releases of eReceipts Client. (ERW-2961)

Printing

- Print receipts faster with the latest version of eReceipts Client. (ERW-2924)
- On the Print settings pages, a note is added to remind users to restart the eReceipts Client if any changes are made to the printer settings. (ERW-3075)

Reports

- Reports are supported in portrait and landscape orientation using font size 8 or 9. Previously, only landscape orientation was supported. (ERW-2922, ERW-2849)

Date Fields

- The date range filters in the Teller Portal and Admin Portal are redesigned to allow users to select the start date and end date from one single pop-up calendar instead of having to click two separate fields to enter the dates. (ERW-2747)

IMM/eSign

Release Notes

Internal Performance Updates

- The logic used to display transactions on signature pads is updated. (ERW-3070)

- Additional checks for error conditions are performed in order to anticipate abnormal scenarios like printing without an active workstation name. (ERW-3073)

- To enhance data security, users are temporarily disconnected from eReceipts when they lock their workstations. When users unlock their workstations, they are automatically reconnected to the Teller Portal. (ERW-3046)

- In this release, internal software updates were performed to improve speed and user interface experience. (ERW-1329, ERW-2672, ERW-2940, ERW-2941, ERW-2943)

- Before client logs are uploaded, the log files are packaged in a .zip file to streamline the process. (ERW-2931)

Fixes

eReceipts Client

- Users were able to launch multiple instances of eReceipts Client. Now, users will not be able to launch more than one instance of eReceipts Client. If a user attempts to launch another instance of eReceipts Client, they will receive an error message. (ERW-3069)

Hardware

- When a user locks a workstation and switches to another workstation, errors occur occasionally if a scanner, printer, or signature capture device is used on the new workstation. (ERW-3045)

- Printing errors occur sometimes if transactions are archived while attempting to print. (ERW-3057)
