IMM eReceipts**Cloud**
Release Notes

eReceipts 8.0.3.6

New With This Release

The components listed here are new or updated in this release. For the latest features and fixes, the latest versions are required.

- eReceipts Server 8.0.3.6

eReceipts Client Compatibility

eReceipts Server 8.0.3.6 is compatible with these client versions:

- eReceipts Client 8.0.3.5
- eReceipts Client 8.0.3.4
- eReceipts Client 8.0.3.2
- eReceipts Client 8.0.3.1

Features

Text Messaging

- Internal upgrades were made to improve performance, text message management, and consumer experience. (ER-147)
- Manage the number of days that a consumer can access the link to their receipt in a text message. Set the link expiration in the Text tab of the System Settings page in the Admin Portal. In addition, the receipt message template now supports up to 200 characters.
- When viewing the receipt on a phone, consumers can zoom in and out for a better user experience.
- To take advantage of the latest text message capabilities, existing users must be migrated. Contact your IMM representative for details. Text message notifications are an optional, paid feature. This feature may not be applicable to you.

User Interface Messages

- Improvements have been made to consolidate the frequency of pop-up messages. (ER-156)

Symitar

- Updates are made to take advantage of the Symitar PowerOn data format. Portrait receipts are supported. (ER-162)

Fixes

- Balances less than $1 are not masked in the receipt for institutions using the Spectrum platform. (ER-153)
- Ampersands (&) are not supported in marketing messages. (ER-170)
- When there are network issues or bandwidth is slow, the eReceipts portal is refreshed, and the UI is blank and frozen. (ER-197)
