- eReceipts Client 8.0.2.5

eReceipts Client Compatibility

eReceipts Server 8.0.3.4 is compatible with these client versions:

- eReceipts Client 8.0.3.4 (New)
- eReceipts Client 8.0.3.2
- eReceipts Client 8.0.3.1
- eReceipts Client 8.0.2.5

Features

Member Import Improvements

- Import member information faster with the latest version of the Member Import Agent. (ERW-2869, ERW-2909)
- The Member Import page displays a summary of the results when an on-demand member import is completed. Import members on demand from the Member Import page in the Admin Portal. (ERW-2951)
- Commonly used special characters are supported in member names. Commas (,) and quotation marks (") are not supported if importing member information using the Member Import feature. (ERW-2845)
- More information is added to the member import log file to assist with troubleshooting. (ERW-2948)
- For existing Member Import Agent environments, use the latest version of the Member Import Agent to take advantage of these enhancements.

Seamless XML Data File Handling

- Portrait XML data files are seamlessly delivered from the core system directly to eReceipts Client with no changes to the way transactions are created or managed in the Teller Portal. The latest eReceipts Client 8.0.3.4 is required to use this feature. IMM eReceipts 7 must be uninstalled prior to installing eReceipts Client 8.0.3.4 (if applicable). Depending on your environment, this feature may not be applicable to you. (ERW-2910)
