Signature Fields Mapping Exercise

Exercise for Scenario 1: Parties Whose Full Name is Available in the XML

X

Primary Borrower - 1st Signature

Primary Borrower - Initial

X

Co-Borrower - 1st Signature

Co-Borrower - Initial

X

Primary Borrower - 2nd Signature

X

Co-Borrower - 2nd Signature

Exercise for Scenario 2: Signing parties whose name is NOT available in the XML

X

Loan Officer

Enter --> Loan Officer's Name here because the "Full Name" field will not auto populate from XML data to enable the signature field.

Exercise for Scenario 3: Signing Parties Whose Name Auto-populates from Another XML Field

X

Collateral Owner

Jon Icasas

Collateral Owner's Name has been duplicated via the expression to CO1_NAME field.
To view the expression, right click on the "CO1_NAME" field.
If CO1_NAME auto populates then the signature will be enabled.
