Select or Enter the Signer Name from the Drop List

When should I use this Javascript?

Scenario 1:
The document has only 1 location for a signature field AND only 1 signer has to be selected or can be manually entered upon Processing the document.

Refer to Example 8a for Scenario 2.

Refer to Example 8a additional reference related to "**What is the expected flow of this document in eSign?**"

Document behavior when processed in Internet Explorer where "Process Sessions on All Browsers (XML)" is unchecked. The same is applicable to Example 9b and 9c.

- The user will NOT be prompted to select the member name from the Drop-List.
- The user WILL be prompted to click the "Validate Signers" button.
- Before clicking the button, the user SHOULD select member name from drop-list.

What are the Design requirements?
Refer to Example 8a for the Design requirements except the following Drop List Property Setting.

1. Drop List - CSTM_NAME
Drop List Property - "List" tab - "Control Type" set to "Drop-list, allow free entry"

Member Name **Select Member Name**

Signature _____ Date: _____ Validate Signers
