

# Implementation Customer Profile

Welcome to the IMMesign family. We appreciate your confidence in our company and our eSignature & Digital Transaction solutions and look forward to working with you to power the digital strategies and initiatives you have established for your institution.

This Customer Profile Form helps us gather key information vital both to the implementation process and for the ongoing management of the relationship between IMM and your institution for years to come.

Please complete the form by providing the information requested. The completed form must be returned prior to the scheduling of your kick-off call.

There is a section at the end of the form that will provide guidance on elements that may be confusing. However, if you should have any questions as you work through the form, please do not hesitate to contact your IMM Solutions Consultant or your IMM Implementation Project Manager.

# Implementation Customer Profile

## Workstation Information

Installer will need to be logged in to workstation(s) as an Administrator.

**Workstation Operating System** Include Version if standardized

---

**Internet Browser & Version**

---

<b>Thin Client Information</b>	Citrix:	Version:
	RDP:	OS:
	VMWare Horizon:	Version:

(If applicable/known)

---

**Number Thin Client Servers**

---

**Number Thin Client Workstations**

---

**Floating Users**

---

**Load Balancing**

---

### Additional Information

Please share any unique details about your workstation environment

# Implementation Customer Profile

## Server Information

The eSignPlus server cannot be installed on a domain controller.  
For the actual installation, your IMM Installer will need to be logged in as a Domain Administrator.

Server Name(s) Production:

Staging/Test:

Server Operating System & Release

Server IP Address

Antivirus Software

Virtual Environment Used

(If applicable/known)

Dedicated SQL Server Name

(See Notes)

During install DBAdmin must have credentials for SA account (or similar account with equal privileges) and password

## User/Group Information

Installation prompts for a user and group with sufficient rights to run services and authenticate with Active Directory.  
These must be set up prior to Installation.

**Domain Account User**

(User account that can read the Active Directory and possesses rights to run Windows Services. eSignPlus supports Active Directory Security Groups (Distribution and Sub/Nested Groups are not supported). Provide the Domain Account name that you establish or intend to establish.)

**Domain Group**

(IMM eSignPlus requires a domain group to be created and include the users that will use the solution. Provide the name of the group you establish or intend to establish.)

# Implementation Customer Profile

## Remote Signer Authentication

Leave blank if unknown at this time.

**Secret Password** Available: \_\_\_\_\_ Default: \_\_\_\_\_

**KBA** Available: \_\_\_\_\_ Default: \_\_\_\_\_  
(Knowledge-based Authentication)

**Phone Authentication** Available: \_\_\_\_\_ Default: \_\_\_\_\_  
(Text Code)

**Government ID** Available: \_\_\_\_\_ Default: \_\_\_\_\_

# Implementation Customer Profile

## Additional Information and Notes

The information below is provided to assist you with the completion of the Customer Profile form. If you have further questions, please do not hesitate to contact your IMM Account Representative or your Implementation Project Manager.

## Institution Information Section

<b>Institution Logo</b>	Please supply your Institution logo in PNG file format: 60 pixels tall x 200 pixels wide by emailing it directly to your IMM Implementation Project Manager
<b>What was Primary Goal for the purchase of eSignPlus</b>	Please describe your institution's key objective(s) in purchasing IMM eSignPlus and include any specific goals you have for the project.

## Key Institution Personnel & Contacts

Please use this table to provide the requested information for the individuals at your institution who will fit into each of the various roles identified. If there are additional key personnel, you can enter them and their expected role in one of the open rows. Feel free to provide additional key contact information or other relevant information regarding contacts in the Additional Information field.

## Primary Business Systems

<b>Live/Hosted/Use with eSign</b>	Please select Yes or No in these fields for each identified system to indicate whether this system is <b>Live</b> , if it is <b>Hosted</b> (as opposed to on-premise), and if you intend to <b>Use it with eSign</b> .
<b>Loan Origination</b>	<p>Please name all Loan Origination systems if you leverage multiple for different loan types (Consumer vs. Commercial, etc).</p> <p><b>Note 1:</b> If you are using LaserPro, please remember to acquire the ProSign Export Module for IMMeSign from your Finastra rep.</p> <p><b>Note 2:</b> If you are using Compliance One, please indicate if you are using it for Consumer Lending and/or Mortgage Origination.</p> <p><b>Note 3:</b> If your documents are dynamic in format, meaning that the content and location of signature fields can shift from loan to loan based upon specific loan criteria, please indicate so.</p>
<b>Imaging/ECM</b>	<p>What is the system(s) you use to store Document Images for archival purposes that will be interfaced with IMM eSignPlus. If you use multiple systems – please name all and their specific use (i.e. System A: Loans, System B: Deposits).</p> <p><b>Note:</b> If you are using Fiserv Nautilus or Director, or Hyland OnBase, please indicate if you have the Document Import Processor (DIP) module. If not – you will need to acquire this module from your Fiserv or Hyland representative.</p>

# Implementation Customer Profile

## IT Infrastructure and Environment Information

**In-House Data Center** Yes/No field – Is your IT infrastructure hosted within your own data center?

---

**Cloud/Hosted Provider** If no above, i.e. IT infrastructure is hosted, please name the provider.

---

**Will there be a Staging/Testing Server** Yes/No field – We highly recommend that each IMM eSignPlus installation also have a staging/test environment.

---

This information is needed to interface IMM eSignPlus services with your email system.

**Email server/host Name or IP Address** **Note:** Email server relay must be enabled to accept traffic from the IMM eSignPlus server. This will need to be done in order to complete Stage 1 of the implementation plan.

---

**Valid Email Account acting as the "FROM" recipient** **Note:** eSignPlus contains the ability to send internal emails to recipients of tasks for operational efficiency. The email is sent from an email account that you establish and share with us here. An example of an account would be eSignAlerts@FIName.com.

---

**Workstation Type** Thick clients are simply standard Windows Desktop PCs. If you use Thin Clients, note that there is additional information requested below.

---

**Number of Workstations for eSign** What is the estimated number of Institution workstations that would be using IMM eSignPlus.

---

**In-Person Signing Devices** Yes/No field – Have you established what devices you will use for in-person/in-branch signing of documents? If so, please indicate what type of device in this field including the Make and Model # as appropriate.

## Workstation Information

**Number Thin Client Servers** If applicable, how many thin-client servers exist in your environment?

---

**Number Thin Client Workstations** If applicable, how many thin-client workstations are in your environment?

---

**Floating Users** Yes/No field – Do multiple employees utilize single workstations/single employees utilize multiple workstations?

---

**Load Balancing** Yes/No field – Do you incorporate load balancing in your IT environment?

# Implementation Customer Profile

## Server Information

<b>Server Name(s)</b>	What are the names of the servers you have allocated for the IMM eSignPlus application software for production and staging/test (if applicable).
<b>Dedicated SQL Server Name</b>	<p>What is the name of the Dedicated SQL server that will be used for the IMM eSignPlus database.</p> <p><b>Note:</b> IMM eSignPlus requires a minimum of the Full Standard Version of SQL to be used for the IMM eSign database. It can not be installed on the IMM eSignPlus application server. IMM eSignPlus can be allocated an instance on an existing SQL Server and will utilize a single SQL Client Access License. During install, DBAdmin must have credentials for the SA account (or similar account with equal privileges) and password</p>

## Remote Signer Authentication

Yes/No fields – For each option, please indicate if your institution wants to make the authentication option an available selection for your employees to select when submitting documents to be signed remotely, if known.

Also indicate if you'd like this to be the default option for sessions.

<b>Secret Password</b>	<b>Note:</b> There is no additional charge to use the password authentication method.
<b>KBA (Knowledge-based authentication)</b>	<b>Note:</b> KBA has an additional charge per your license agreement with IMM. Cost information can be found on the Schedule 1 portion of the license agreement.
<b>Phone Authentication (Text codes)</b>	<b>Note:</b> Phone Authentication has an additional charge per your license agreement with IMM. Cost information can be found on the Schedule 1 portion of the license agreement.
<b>Government ID</b>	<b>Note:</b> Government ID has an additional charge per your license agreement with IMM. Cost information can be found on the Schedule 1 portion of the license agreement.
